Limited & Preferred Parking

ENHANCED PRICING FOR T2 LUKE® PAY STATIONS

T2 Luke Multi-Space Pay Stations are designed specifically for on-street parking in communities and cities – big and small. When combined with a Pay-by-License Plate parking model – where consumers simply go to the pay station, enter their license plate number, and purchase time – Luke Pay Stations offer advanced pricing options that allow you to offer flexible and discounted pricing to visitors and residents while increasing your bottom line.

LIMITED PARKING

Ease into Paid Parking with Flexible Pricing

Encourage short-stay parking and improve turnover with T2 Limited Parking. This feature enables you to offer discounted or free parking sessions, such as 1 Hour Free. Meanwhile, the pay station automatically prevents patrons from purchasing the discount rate more than once per day – on subsequent attempts to purchase a permit for the same license plate, the limited rate will not be offered.

Benefits

- Encourages short-stay parking, which in turn improves turnover and increases the number of customers visiting nearby businesses
- Simpler and more customer-friendly than traditional free time tokens/credits
- Provides flexible pricing options more in line with your needs

PREFERRED PARKING

Satisfy your VIPs with Discounted Parking

000000000003100000

T2 Preferred Parking gives you the ability to offer discounted parking to registered parkers, such as residents, members, employees, or other VIPs. If a plate is registered in T2 Iris $^{\text{TM}}$, the pay station will offer the preferred rate, while non-registered plates will never see the preferred rates.

Benefits

- Offers residential discounts which help obtain buy-in from residents when introducing paid parking into new neighborhoods
- Ability to create and manage different parking policies for customers and employees
- Provides preferred rates to faculty/staff permit holders when parking in lots for events or other transient lots on campus
- Extends special parking rates to VIPs

Transit Center Garage:

CAMP related concrete repairs and post tension cable repairs are tentatively scheduled for later in the spring.

Courthouse Garage:

• LPA has forwarded the necessary support documentation to the AOC for a 50% reimbursement on the \$31,280 cost of the suicide deterrent fencing structural enhancements along the Barr Street side of the garage.

Victorian Square Garage:

• DB General Contracting began installation of a storefront system on the roof level. The storefront system will help prevent any wind driven rain from potentially flooding the stair tower and will also help prevent water runoff related to the parking deck from entering the elevator lobby area. The cost of the project is \$16,195.

General Garage Notes:

• Following an extension of the submittal deadline, LPA received one bid proposal for the CAMP MEP (mechanical, electrical, and plumbing) repair and maintenance bid package. The proposal was submitted by DB General Contracting.
